

Attn: Director Governance and Economic Development

Thank you for your correspondence dated 26 May 2014.

Your letter refers to a letter dated 10 April 2014 which has not been received.
Would you kindly forward copy re same at your earliest convenience.

It is noted that the material and questions in emails dated 4 April, 1 May and 10 May 2014 forwarded to City of Whittlesea (COW) has not been answered.
If this is an oversight it is sought these be provided forthwith, alternatively if COW intends not to answer any or all of these queries kindly state reasons.

Inclusive of what has already been sought, the COW has failed to provide evidence and particulars of:

- a) harm, injury or loss to COW or others;
- b) validity of COW usurping power or having authority over another, unlawful or otherwise;
- c) COW validity in 1900 Commonwealth Constitution, especially in reference to 1988 Referendum;
- d) consent the people and I have given to COW authorising Infringement Notices and Fines to be issued;
- e) the relevant contract and full disclosure;
- f) the vehicle parking, relevant conditions and contractual arrangements;
- g) how the Act you refer to is lawful and relevant to me;
- h) whether the fine has been classified as being prosecuted;
- i) certification and appointment from Governor under Section 72 Commonwealth Constitution giving authority to the parking officer or any individual acting for the officer to issue fines. *Spratt v Hermes* 1965 HCA.

Furthermore, the Bill of Rights is an offer to which I accept, therefore I am No.2 to that of God. Does COW or you as a COW agent claim and can prove that you:

- a) exist above God?
- b) are God?
- c) exist between God and Me?
- d) can produce a document upon the face of which can be found the verifiable signature of one deity commonly known as God?

Man is the original and ultimate authority and Sovereign. As it stands neither you, the COW nor anyone has authority over another, especially when it is unlawful.

If you know in your heart that you do, not just a belief in a lie, then put forth your evidence.

If you wish this matter to proceed, in addition to costs and counter claim for damages as previously mentioned, the matter will have to be case stated before the High Court as every fine breaches chapter 3 Commonwealth Constitution and entrenched law of Bill of Rights and so on.

In light of the letter mishap above, COW failing to provide evidence and answer relevant questions in previous correspondence and now further questions in this email, an extension of time has been granted until 14 June 2014 to allow COW to comply with these requests in a full and complete manner, failing of which it will be agreed between the parties that from the 14 June 2014 the COW will have withdrawn the infringement notice.

Good governance is a kin to being honourable and following the Rule of Law, not the Rule of Force.

God Bless - Love Thy Neighbour
